Re: **Update concerning the NW 66 Avenue/Kempton Bridge Reconstruction Project.**

Please be aware that beginning Tuesday, October 27th, a "No Left Turn" condition will be implemented on eastbound NW 66 Avenue at the intersection of NW Toni Drive during the peak drive times of 6 AM to 9 AM and 3 PM to 6 PM. To reduce traffic delays.

Those drivers wishing to go north on NW Toni Drive will have to use NW 26th St. to NW 70th Ave. or Hwy 415 during these time periods.

The temporary detour of the Neal Smith Trail continues as shown on the Neal Smith Trail Detour Map posted on the project website www.Kemptonbridge.com.

This temporary trail takes riders from the existing trail south of the bridge, east along the south side of the existing Neal Smith Trail parking lot, and continues east to connect to NW 66 Ave. opposite the intersection of NW Toni Drive.

To cross NW 66 Ave., a push button activated traffic signal has been installed. Bike lanes have been constructed along both sides of NW Toni Drive from NW 66 Ave. to the intersection of the Oralabor Gateway Trail which will then take riders back west to the Neal Smith Trail, or east on the Oralabor Gateway Trail towards Ankeny.

If you have questions or comments concerning this project, please contact:
