It's springtime in the Dash Village!
But while springtime can be full of fun and new
life, it can also be full of disasters!
What can they do to be prepared?

Mr. Akio instructs them about the dangers of severe weather. You should always have a plan in case of disasters!

If you see standing water, don't go in it no matter how calm it looks! Get to higher ground as soon as possible! Flood water can be very dangerous.

You should always have a meeting spot in case of disasters!
Find your way to the meeting spot and pick up the other villagers on the way!

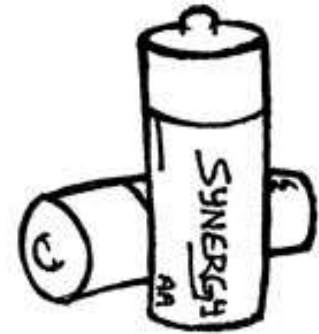

In case of a fire, always be sure to have a planned escape route! Even the smoke can be very dangerous.
