### DESCRIPTION:

Organized Crime Suppression and Interdiction (OCSI) Training is a southern California based training program for law enforcement agencies across the nation. This eight hour course is designed to supplement the student's initial or recent training in this area. The focus of this course is drawing the student into an active discussion about ethics and leadership and how these topics affect their daily work. This course is officially titled: Ethics and Leadership: A Brief Discussion for Law Officers. Minimal time is spent on "teaching." Maximum time is spent on interaction between the students to help them realize that Ethics isn't what they might think it is and Leadership isn't always what a Sergeant does. Critical thinking and decisive decision-making are illustrated, discussed and encouraged. Each class is unique due to the nature of the subject and the "no preaching" attitude of the lesson plan.
