

Quarantine for COVID-19 household contacts who cannot ensure 100% isolation

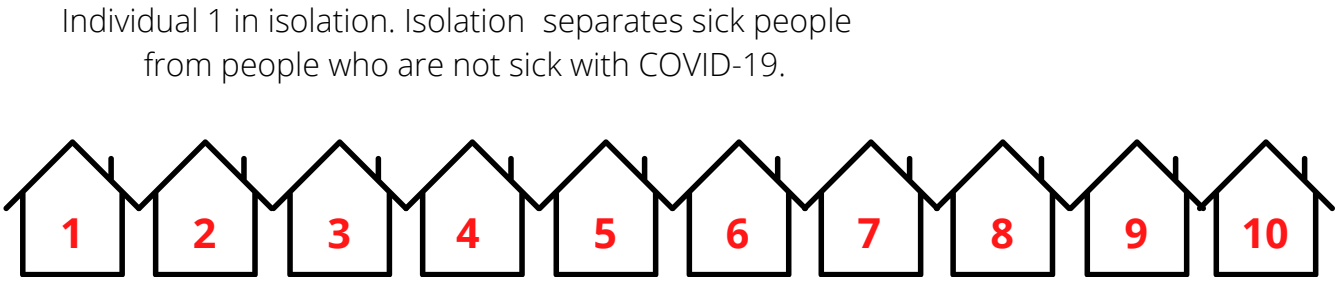

Stay home and away from others for 14 additional days following the positive household contacts 10 day isolation for a total of 24 days.

.....
 If someone else becomes sick within the household, you must start over.

Day 0: positive individual test date/onset of COVID-19 symptoms

Quarantine separates and restricts the movement of people who were exposed to a contagious disease to see if they become sick.
