The Polk County Conservation Board met in regular session on March 11, 2015. Minutes for the meeting are attached.

c) Financial Reports

d) Director's Remarks

e) Board Chair and Member's Remarks

2) Public Comments

3) Consent Agenda Items

a) Action on the Bill List

March 2015 expenditures have been e-mailed to the Board for review.

STAFF RECOMMENDATION: That the Board approve the PCCB March 2015 bill list.

4) Public Hearing: Transfer of Property to City of Ankeny

A public hearing will be held at which time any person may appear to speak for or against the transfer of trail right-of-way property to the City of Ankeny located from Hwy. 69 through Oralabor Road to the south end of the Ankeny Corporate limits.

The City of Ankeny and Polk County Conservation Board worked as partners to acquire the UP Industrial Lead rail road right-of-way when it was abandoned. The Iowa Natural Heritage Foundation (INHF) purchased the property and held it until the City and PCC could raise the funds through grants and budgeted monies to acquire it from the INHF. (Map attached)

The first series of grants allowed for the purchase of approximately 2/3's of the property and Polk County transferred a portion to Ankeny last year. The final grant (State Recreational Trails Grant) was received last year and the INHF transferred the remaining property to Polk County Conservation.

The original agreement with Ankeny is that they would own all of the abandoned R-O-W within city boundaries and use that property for the extension of the High Trestle Trail southward through their community. That land is shown on the accompanying document (7 distinct parcels of approx. 21.451 acres).

Polk County Conservation has no further use for the property as the City of Ankeny will be developing that portion of the trail and to fulfill our commitment, we need to transfer a portion of the property that lies within the City of Ankeny to the City.

- Loren Lown
Parks and Natural Areas Administrator

STAFF RECOMMENDATION: That the PCCB resolve that they have no further use for the 7 parcels of the former UP industrial Lead that lie within the City of Ankeny and that the transfer of that land to the City of Ankeny will not interfere with the use of the land as parkland and further resolve to request that the Polk County Board of Supervisors deed the property to the City of Ankeny as per our agreement.

5) **Public Hearing: Great Western Trail Extension to Bill Riley Trail Project**

A public hearing will be held at which time any person may appear to speak for or against the proposed plans, specifications, and estimated costs for the Great Western Trail extension to Bill Riley Trail project, starting from current trailhead south of George Flagg Parkway, near the Izaak Walton League, eastward to 30th Street.

There will be a presentation of the plans, specifications and cost opinion to extend the Great Western Trail from the current terminus near the Izaak Walton League clubhouse eastward on the old Great Western Trail rail bed to SW 30th Street.

The bids to construct this project will not be requested until the agreement for the management of the Des Moines owned section is completed.

- Loren Lown
Parks and Natural Areas Administrator

STAFF RECOMMENDATION: That the Board approves of the plans, specifications and cost estimate for the Great Western Trail Extension to Bill Riley Trail project and instructs staff to advertise for bids to construct the trail extension when the proper management agreement is in place; and further directs staff to bring the bid results to the PCCB for action at a future meeting.

6) **Chichaqua Bottoms Greenbelt, Master Plan - Scope of Services**

A previous contract with HR Green for a Chichaqua Bottoms Greenbelt Master Plan has been fully executed. Because of programmatic changes in direction this work needs revision and to be completed. By mutual agreement, RDG Planning & Design will be the primary agency on a new contract to finish this project with HR Green acting in a supporting role.

It is anticipated that the new contract with RDG Planning & Design will be brought to the meeting for Board consideration.

STAFF RECOMMENDATION: To be presented at the meeting.

7) **Polk County Conservation, Water Quality Monitoring**

Polk County Conservation (PCC) will be stepping up its efforts in water quality monitoring throughout Polk County. Coordinating volunteers trained in the IOWATER program, 18 trained staff will be joining the effort to routinely monitor designated points along waterways both inside park boundaries and out.

Joe Boyles and Heidi Anderson will be coordinating the efforts for PCC and accumulating data not only as baseline information but also to look for long-term trends. Year one priorities are to be focused on monthly data collection of physical and chemical parameters mostly in moving water bodies. Quarterly data will be collected from still water bodies. Monitoring sites and

frequencies may be added or deleted in the future as data drives the program. If needed, additional biological sampling may be added in the future as well.

Year one waterways to be monitored include 4-mile Creek, Camp/Mud/Spring Creeks, Walnut Creek, and smaller streams within park boundaries. Several cities and other groups have been testing for the last several years, so PCC will fill in the points of these waterways outside of their boundaries with the hope of gaining a more complete set of data for each system.

Joe Boyles and Heidi Anderson will be at the meeting to address any questions the Board may have.
