Re: **Update concerning the NW 66 Avenue/Kempton Bridge Reconstruction Project.**

Work continues on the initial construction phase of the project to construct the temporary detour of the Neal Smith Trail, install temporary signals for the trail crossing of NW 66 Ave, and the widening needed to shift traffic before bridge construction can begin. These activities will continue next week and may require periodic non-peak lane closures, so minor delays may be encountered.

Also, work continues on the addition of bike lanes on NW Toni Drive, so motorists can expect lane closures for this work the rest of this week and through Wednesday of next week.

The one-lane closures will utilize flag persons to control traffic and may cause brief delays for motorists. Please use caution when traveling through this area.

If you have additional questions or comments regarding the proposed improvements, please contact:
