

Enable Location Services on Android

How To Enable Location Services on Android for Mobile Check In

1. Open settings and type "**location**" in the search bar.

2. Click on location and make sure it is highlighted to "**On.**"

3. Click on **App Permissions** and find Google.

4. Click on **Google** and make sure that the location permission is set to either "**Allow all the time,**" or "**Allow only while using the app.**"

5. Make sure **Use Precise Location** is on.

6. Once location settings have been updated, return to the check in link and the **blue check in button** should appear on the screen. Click to check in.
