

Situation Report (SIT-REP) Version: 3

Incident Name: COVID-19
Report Date: 18 March 2020
Report Time: 1700 Hours

For Additional Information Contact:

Helen Eddy, Director
Polk County Public Health
515-782-7236
nola.aigner@polkcountyiowa.gov

Proudly serving the communities of:

Alleman, Altoona, Ankeny, Bondurant, Clive, Des Moines, Elkhart, Grimes, Johnston, Mitchellville, Pleasant Hill, Polk City, Polk County, Runnells, Urbandale, West Des Moines, and Windsor Heights

SECTION 1: SITUATION DESCRIPTION

The COVID-19 is a world-wide pandemic according to the World Health Organization. The President of the United States of America has declared a Public Health Emergency and has issued an Emergency Declaration. Within Iowa, Governor Reynolds has issued a public health emergency proclamation. All of these declarations and proclamations have relaxed various authorities and regulations to respond to this incident. Those changes will continue to be assessed and may be altered. Individuals should contact their respective authorities for those changes.

Currently, in Iowa, we have community spread, which means that people are becoming infected in ways that cannot be traced back to travel or known infected individuals.

Personal protective equipment, testing, screening and surveillance guidelines and recommendations continue to be evaluated and are adjusted frequently as more information is gathered about this virus. Current guidelines should be sourced from Polk County Health Department's webpage.

SECTION 2: FORECAST

Local Forecast Details: <http://www.crh.noaa.gov/dmx/>

Severe weather: (NEW)

* Severe Threat Thursday, River Flooding into the Weekend, Strong Winds and Returning Bitter Cold Thursday Night into Friday

* WHERE - Severe Threat: Central and Southern Iowa, Strong Winds and Cold: Northern and Central Iowa

* WHEN - Severe Threat: Thursday Afternoon and Evening, Strong Winds and Cold: Thursday Night into Friday, River Flooding: Weekend into Early Next Week

SECTION 3: OPERATIONAL FOCUS AREAS, PRIORITIES AND ASSUMPTIONS

Operational Focus Areas

1. Situational State/Situational Analysis
2. Determine Priority of Incident(s)
3. Acquire/Allocate Critical Resources
4. Crisis Information Management
5. Develop/Advise/Support Policy-Level Decisions
6. Coordinate with Elected/Appointed Officials
7. Coordination with County, State, Federal, Private, and Non-Governmental Components

Incident Priorities

1. Care for Life, Safety and Health
2. Stabilize Incident
3. Recover

Planning assumptions

1. Public health preparedness will limit the scope of the disease spread (Phase 1)
2. It is likely that a localized outbreak will occur in Polk County (Phase 2)
3. Polk County may experience community spread of the disease (Phase 3)
4. Polk County Public Health may not be informed of a positive case or tests submitted
5. Resources such as personal protective equipment will be very limited and possibly unavailable

6. Sharing of valid information with community partners and the public will ease fears and drive appropriate actions
7. This is a fast-paced and evolving incident and information will change and require updating on a frequent basis
8. Coordination and collaboration among community partners is necessary and will be done using the principles of the National Incident Management System (NIMS) and Incident Command System (ICS)
9. Safety message (ICS-208) will be followed in the building

SECTION 4: ACTIVATION AND STAFFING LEVEL

Current activation level is a 3 (of 5) – “Limited” and expected to remain for an unknown period of time. Staff will continue to coordinate with local entities on individual basis and scheduled conference calls as needed.

| Activation Level | Generalized Description of Activities | |
|------------------|---------------------------------------|--|
| 5 | Monitoring | Existing resources and capabilities are not necessarily coordinated outside of their own jurisdiction or outside of their immediate discipline. Normal administrative, planning, training, and exercise activities are scheduled and carried out |
| 4 | Limited | Request of limited coordination by available EMA staff personnel for a single jurisdiction or single discipline. This is done from the incident scene, command post, or agency administrative office. Select procedures and portions of the CEP are utilized as needed |
| 3 | Partial | Activities include the activation of select ESFs. Primary and support entities are notified to support incident activities and staff the EOC. EOC may be activated but 24-hour staffing is unlikely. CEP Base Plan concepts and select ESFs are implemented |
| 2 | Full | In a full-scale activation, all ESF primary and support entities are notified and the EOC is fully staffed for 24-hour coverage. Activities include the coordination of local resources with the potential of integrating state and federal resources into local response priorities |
| 1 | Advanced | An advanced level means that local capabilities are largely depleted or inadequate to respond to the wide geographic nature or complexity of the incident. Activities include coordinating with state and federal entities and their resources |

SECTION 5: PROCLAMATIONS AND DECLARATIONS

Local Emergency Proclamation: None

Governor’s Proclamation: March 9, 2020

Presidential National Emergency Declared: March 13, 2020

SECTION 6: DISEASE IMPACT

| | |
|---------------------------------------|---|
| Confirmed COVID in Polk County | 1 |
|---------------------------------------|---|

| | |
|---|------------------------|
| Under monitoring / voluntary isolation or quarantine | Always changing |
|---|------------------------|

SECTION 7: EMERGENCY SUPPORT FUNCTION (ESF) STATUS

The Polk County Comprehensive Emergency Plan (CEP) is built on 15 core emergency support functions or ESFs. The ESFs provide the structure for coordinating interagency and interjurisdictional support for significant incidents and planned events in Polk County. The ESF structure includes mechanisms used to provide support to local jurisdictions both for unplanned emergency incidents and planned events alike. The following subsections provide a briefing of activities by emergency support function.

ESF #1: Transportation (transportation of goods/supplies and people; route management; routes blocked; school delays and closings, etc.)

DART: Has temporarily stopped collecting fares and is asking all passengers to get on and off the bus through the back door if they can safely do so. Daily disinfection protocols on all vehicles. Drivers have cleaning wipes and hand sanitizer. Increased frequency of high-touch areas in all facilities. No change in services at this time. Asking public to not ride when sick, cover coughs and maintain social distancing **(UPDATED)**.

DSM Airport: Airlines are greatly reducing domestic service. Check with airlines to make sure flights are still scheduled. Airport concessions will follow guidance from the Iowa Department of Public Health; at this time, the airport will be transitioning to grab and go food offerings only. Discussions about employee safety ongoing. Enhanced cleaning of touch surfaces is in place.

LINK: Transportation still available for persons served as part of work plan, but canceled for leisure. Heightened sanitation on all vehicles.

Iowa DOT: Multiple adjustments at service centers statewide, including: driver license renewal extensions; title, registration and plate expiration requirement changes; overweight load limit changes; appointment-only access to service centers for driver licenses and IDs; health risk evaluation services at entrance to service centers; increased cleaning of high touch areas and encouragement of social distancing (customers may be asked to wait in vehicles). Details at <https://www.news.iowadot.gov/newsandinfo/2020/03/iowa-dot-adjusts-public-services-in-response-to-covid-19.html> **(NEW)**.

Prairie Meadows: has opened their parking lot for over-the-road truckers to park and meet rest requirements **(NEW)**.

ESF #2: Communications (911; paging; dispatch; warning; etc.)

DM Dispatch: No current restrictions on ambulance availability. ~~New call protocol will ask patients with “breathing problems” and “sick” call types about travel or exposure to COVID confirmed person.~~ Dispatch center restricted only to call center staff (no visitors, no other personnel). Now asking every medical call regardless of chief complaint the questions about travel, exposure and fever/SOB. DMPD is now handling most paper trips over the phone, so that is changing how dispatch handles those CFS **(UPDATED)**.

PC Dispatch: Pushing IDPH and PCEMA updates to EMS, law Enforcement and fire fighters. Use Emergency Medical Dispatch protocol to identify potential COVID cases.

Westcom: Effective 1700 on 3/18/2020, Westcom will begin interviewing all callers about any illness or recent travel **(NEW)**.

Iowa Lottery is using their electronic signs throughout the state to post COVID safety messages **(NEW)**.

ESF #3: Public Works and Engineering (water, wastewater, debris management, plowing operations, traffic control devices, etc.)

DM Waterworks: Maintain water production by keeping employees well, through social distancing, hygiene, and cessation of home calls. Temporary suspension of water shutoffs. Main office is now closed to walk-in customers. Have begun setting up facilities for sequestering critical staff on site.

WDM Waterworks has put policies in place to assure delivery of services throughout the pandemic.

ESF #4: Firefighting (suppression; prevention; and evacuation)

DM Fire: ~~High degree of cooperation among first responders to share SOGs and equipment research. Current discussions on how to triage changes when disease more widespread.~~ Part of senior staff and plans review working remotely. Headquarters facility open internal operations, but movements restricted and all non-emergent public programming is suspended. Ongoing training programs required for service delivery are evaluated individually to ensure facilitation can occur with distancing/spacing, etc. **(UPDATED)**

Urbandale Fire: cancelled all classes and public appearances.

Polk County Fire Chief's Association has been invited to be represented in the Polk County EOC to represent ESF-4.

ESF #5: Emergency Management (EOC and CEP coordination; situation unit, liaison with state and federal entities; etc.)

- EOC activated on 03/06/2020
- Documented and/or fulfilled resource requests **(NEW)**
- ~~Initial EOC Briefing conducted on 3/10/2020~~
- Medical Coordination Center planning begin 3/13/2020
- ~~EOC Operations Briefing scheduled for 3/17/2020~~
- ~~Press conference on 3/16/19~~
- Participated in the Dallas County EOC Briefing to ensure consistency and situational awareness of information. **(NEW)**
- Critical infrastructure partner call scheduled for 3/18/2020 **(NEW)**

ESF #6: Mass Care, Housing, Human Services (ARC, Salvation Army, United Way, etc.)

Red Cross: Monitoring response partner needs. Implementing national disaster matrix for providing assistance to disaster victims. Maintaining capacity to respond to other natural disasters.

Salvation Army: Canteen ready to be deployed for meals or supply drop-offs. Normal operations continuing with precautions to avoid transmittal. Food pantries handing out pre-packaged food orders.

United Way 2-1-1: serving as statewide hotline for general COVID questions, and Polk County hotline for medical questions (answered by nurses from Central Iowa medical systems).

Sheltering planning for homeless populations who are under self-quarantine or isolation is in progress.

ESF #7: Resource Support (support not necessarily mentioned in other ESFs)

Safeguard Iowa: Safeguard Iowa Partnership has been assisting in locating volunteers to work the 211 Call Center. Safeguard Iowa and Polk County EMA conducted a critical infrastructure conference call to help to develop a better understanding of protective measures taken, information needs and questions that could be addressed through partner organizations. A FAQ page is being developed for Critical Infrastructure Partners. **(UPDATED)**

Gathering best practices from CDC, IDPH, PCHD and pushing out to 750 member employers on employee safety and sanitation, social distancing, mental health, work-from-home. Getting answers to questions that employers need.

Documented and/or fulfilled resource requests.

ESF #8: Public Health and Medical Services (EMS; hospitals, healthcare facilities; mental health, etc.)

ESF-8 was activated on 3/6/2020; however the ESF-8 team has been meeting since January 29. As a part of that planning, a phased approach was developed: Preparedness (Phase 1); Localized Outbreak (Phase 2); Community Spread (Phase 3).

Medical Coordination Center planning group was established to address key healthcare system issues, which included embedding medical personnel in 2-1-1, clarification on testing protocols, EMS protocols, and PPE recommendations. This group represents the hospitals in Polk County, clinics and representatives for EMS services.

Mental health providers are coordinating the needs for the homeless population, public and healthcare providers.

As cases or potential cases are identified, public health staff are continuing their contact tracing and providing PH guidance.

~~A press conference was held on 3/16 and the PCHD website is reviewed and updated daily with the most current information. The communicable disease team continues to take many calls to answer questions of the public and clinicians.~~

Critical PPE and other medical resources remain scarce. However, the guidance continues to change as more cases are confirmed and more is discovered about the disease.

2-1-1 medical call center established and taking calls providing clinical triage. **(NEW)**

Monitoring bed capacity, testing and medical supply inventories daily. **(NEW)**

ESF #9: Search and Rescue (extrication and location of missing persons)

Nothing to report

ESF #10: Hazardous Materials

Nothing to report

ESF #11: Agriculture, Natural Resources, and Pets

ARL: Currently no change in services or hours but reducing public access at ARL buildings; updates at arl-iowa.org. Some event cancellations, per CDC guidelines. Keeping employees safe by providing proper PPE, and reducing public contact. There is no evidence of animals being a threat of either transmitting or receiving COVID-19 **(UPDATED)**.

ESF #12: Energy

MidAmerican Energy has implemented its business continuity plan to ensure energy service is maintained. Temporary travel restrictions and self-isolation are in place for employees, as well as restricted visitors and access to key facilities. Key employees and tasks are being separated to multiple locations to ensure continuity. New safety protocols are in place for ensuring safety during home visits.

ESF #13: Law Enforcement and Security

Law enforcement, when performing LE duties, should not need N95 protection. If they are performing medical/life-saving procedures involving the airway, N95 protection is recommended.

Johnston: Issuance of PPE (gloves, masks, eye protection). Enhanced hygiene by more frequently uniform washing, changing out of uniforms before going home. Reduction of non-essential trainings and education. Prioritizing which calls must be done in person, vs more administrative calls to be done by phone.

DMPD: the union and the City have entered into a mutually agreed upon MOU that states employees will receive continuation of regular wages for the hours an employee would have otherwise worked if they are symptomatic or are otherwise required to miss work for purposes of isolation, testing, and/or recovery from COVID - 19 symptoms, OR have tested positive and are in quarantine, OR an employee has been exposed to someone who has the virus and the employee needs to be tested, OR if an employee is needed to care for a family member who has the virus or has been in contact with someone who has the virus and has been directed to self-isolate. The MOU goes on to address use of sick leave after 14 days, and the ability to borrow against future sick leave. MOU is effective through 16 April unless adjusted with mutual agreement. (NEW)

Public lobby remains open but residents needing non-emergency police services are strongly encouraged to call the police department, rather than visiting the department. Tours, civilian ride-alongs, public fingerprinting have been temporarily suspended. Officers issued right types and amounts of PPE. Disinfecting and cleaning processes of vehicles and shared equipment are being repeated as shifts change. Asking officers to use discretion on when to choose citation instead of custody to minimize contact when possible.

Windsor Heights: Have restricted public access to City Hall and Public Safety building. Requiring deeper cleaning of police and fire equipment and vehicles.

Polk County Law Enforcement Executives Association (PLEXA) has been invited to be represented in the Polk County EOC to represent ESF-13. Representatives will be in the EOC from 9-5 M-F. Currently they are identifying priorities and strategies to address LE concerns. Daily conference calls will occur with PLEXA at noon. (UPDATED)

ESF #14: Mitigation and Recovery (disaster assistance program coordination)

Nothing to report

ESF #15: Public Information

Continue to update PCHD website and social media
 Handle and respond to media requests as needed
 Coordinate press conference
 Mitigate rumor control
 Create videos as needed for public release on the PCPH YouTube channel (NEW)

SECTION 8: REQUESTS FOR ADDITIONAL RESOURCES

Personal protective equipment continues to be requested, but are unable to be fulfilled in large quantities. However, requests are being forwarded to the State Emergency Operations Center so orders can be fulfilled when resources do become available.

SECTION 9: OTHER RELEVANT INFORMATION
